ACADEMIC DETAILS

Degree/Course	Institution	Year of Passing	Percentage / Grade
Bachelor of engineering (Mechanical Engineering)	Visvesvaraya Technological University Karnataka	2016	61%
Intermediate	Bihar board Patna	2012	71%
Matriculation	Bihar board patna	2010	72%

WORK EXPERIENCE

Organization	Designation	Duration
Hydmark applicon	Sales and application Engineer	Aug 2016 - Jul 2017
Sudhir automotive industries Pvt Ltd Rohtak Haryana	Sales and application Engineer	Aug 2017 - till date

Roles

- sales and application Engineer handled customer service and their requirements (heavy machinery, hydraulic product, hydraulic cylinder, hydraulic pumps, hydraulic power pack, hydraulic press etc.
- sales and application Engineer handling sales and service handling customer name
 - Bajaj auto Ltd
 - Bajaj chakan
 - Bajaj spd
 - Bajaj waluj
 - BadveAuto-comp Pvt Ltd
 - Minda industries Pvt Ltd Pune
 - Minda corporation Ltd Pantnagar
 - Suzuki Two wheelers motorcycle
 - Dhananjay Metal craft Pvt Ltd pune
 - Simplex engineering Co.
 - this is our some short and important customer still I am handling.
 - supporting technical role according to depend upon the customer whatever their requirements.
 - also handling project based customer.

PROJECT DETAILS

Title : Fast chilling cooling system

Description : Every once and awhile you get caught with a short supply of cold beer(or wine or pop) and too much demand to wait for it to chill in the refrigerator. The solution is ice and there are 3 methods using ice to chill a beer fast.

To chill beer fast, place your warm beer bottles and/or cans into a large bowl, bucket, or even the kitchen sink and cover with ice. Jiggle the beer bottles/cans every couple minutes. This will take 20-30 minutes.

If you want to chill your beer faster, adding water to the mix will knock down the cooling time to about 10 minutes.

And to chill your beer even faster yet, adding about 1 cup of salt (rock or granulated) for every 3 pounds of ice will reduce the freezing temperature of the water and cool your beer in 2-3 minutes. Make sure you mix the salt into the water then constantly jiggle the beer bottles/cans and rinse them before opening!

Duration : 28 days

Role : Team members

Team Size : 4

FIELD OF INTERESTS

- Manufacturing
- Production

SKILLS

- Effective technical skills. The ability to work under pressure. Problem-solving skills. Creativity. Interpersonal skills. Verbal and written communication skills. Commercial awareness. Teamworking skills.

STRENGTH

- When my family is happy with me it's my strong point

HOBBIES

- Playing cricket
- Listening music
