

Power-Tech Forge

Manufacturer of Forged Component

We offer comprehensive range of high quality **Upset Forged Products Components**, which is manufactured using finest quality metals and alloys. The range of Forged Components offered by us is used across various industries.

Power-Tech Forge

Manufacturer of Forged Component

Established in the year **2006**, we “**Power-Tech Forge**” have carved a niche for ourselves in the market domain of manufacturing, exporting and supplying a wide range of best quality **Upset Forged Parts useful to provide shape of Tractor Component, Automobile component, Industrial Valve component, Gear Raw Material, Transmission Component and Pole Line Hardware**. The offered range has been availed to the customer’s at the most comprehensive prices. Our range has been made inclusive of a wide variety of such products that easily cater to the needs of the customers from the various industries. The range made available by us is manufactured using excellent quality material that is sourced from most trusted and reliable vendors of market. All our products are widely acknowledged in market for their intrusive attributes such as dimensional accuracy, fine finishing, Material Property, Tensile strength and easy installation. Moreover, to cater to the diverse requirements of customers; we offer these products in variegated appearance, shapes and dimensions Competitive prices.

Production Capacity

Γ Power Press	2 Nos
Γ Metal Gathering machine	2 Nos
Γ Forging Screw Press	2 Nos
Γ Lathe Machine	1 Nos
Γ CNC-Turning Centre	1 Nos (Dia 200 mm x Length 600mm)

Product

- Γ T-Bolt, Hammer Head Bolt, Elevator Bolt
- Γ All type of Head Bolt,
- Γ Glass stud
- Γ Special Size, customized Components and Shape Fasteners
- Γ A193 B7 Grade Stud and Bolt
- Γ High Tensile Bolt
- Γ Eye bolt, Automobile Shafting

Raw material

- Mild Steel, Alloy Steel, Inconel Steel
- Stainless Steel 202, 304, 316, 416
- Material Size (dia. 6mm to 42mm)

Power-Tech Forge

Manufacturer of Forged Component

Product

1. Eye Bolt

Eye bolts are externally threaded fasteners featuring loops that secure cables, wires, and chains to assist with vertical lifting. An eye bolt is a bolt with a loop at one end. They are used to firmly attach a securing eye to a structure, so that ropes or cables may then be tied to it.

2. T-Bolt or Hammer Head Bolt

We provide an exclusive range of T Bolts, which are highly acclaimed for its durability, abrasion resistance and low maintenance cost features. These bolts are manufactured using premium grade raw material as per the international quality standards and are known for their high performance, sturdy construction and long service life. These T- bolts are available in all size. We provide an exclusive range of T Bolts, which are highly acclaimed for its durability, abrasion resistance and low maintenance cost features. These bolts are manufactured using premium grade raw material as per the international quality standards and are known for their high performance, sturdy construction and long service life. **These T- bolts are available in all size and Material as per Customer Requirements.**

3. Precision Machined Components

We are global supplier for variety of metal components with expertise in precision manufacturing. We proudly serve in sectors like aviation, automotive along with locomotives, defense sector including Industrial Products commodity, oil and gas industry, electronics, energy and power sector. Excellent manufacturing facilities enable us cater our customers demand with high quality and precision.

Power-Tech Forge

Manufacturer of Forged Component

4. Special Fasteners

We are engaged in offering an extensive range of Special Fasteners that are widely demanded in the automobile, electrical, shipping and various other engineering industries for binding two objects tightly. The offered fasteners are manufactured by our dexterous technical experts utilizing supreme grade brass, stainless steel material and latest machinery in compliance with international standards.

Features:

- Perfect finish
- Dimensional accuracy
- High strength

Power-Tech Forge

Manufacturer of Forged Component

5. High Tensile Bolt

We have been able to manufacture, export and supply High Tensile Fasteners (8.8, 10.9 and 12.9 grade) that are used in the assembly of automobiles, machines, pipelines and many other types of equipment. These fasteners are manufactured with the use of supreme grade raw material under the stern supervision of our technical experts. Our valuable clients can be availed these fasteners with us in various sizes, shapes and finishes as per the choice of our clients.

Features:

- High strength
- Customer Specify
- Corrosion resistance

6. Transmission Line Hardware

We are offering our customers a wide range of Ball Pin for Ceramic (Porcelain) Insulator. Ball pin fitting include ball pin. Tongue pin. The material is forged-steel. Our product range from 45KN to 500KN. Can meet all client`s requirement.

7. Other Forged Component
