 **Royal Fasteners**
MANUFACTURERS : QUALITY FASTENERS

Manufacturers of Brass / M. S. Fasteners & Components

Royal Fasteners, established in the year 1993, with an aim of manufacturing best quality fasteners. Started on an 1000 sq. feet area with a workforce of 9 workers we have expanded to 26,500 sq. ft. area with increased workforce of 44 workers. We have become a major manufacturer of highly durable array of screws, nuts, bolts, U-bolts, selftapping screws, rivets in variety of materials including different grades of steel, copper and its alloys, brass as well as in stainless steel. Equipped with machinery consisting of Taiwan made header machines, 3 station header machine, chamfer machines, burr free slotting machines, screw washer assembly machine and highspeed roll die threading machines we are currently running production capacity of 11,00,000 screws/shift.

The manufacturing process is based on customer requirement varying in sizes from metric thread M2 to M16 and its equivalent thread sizes in different standards such as DIN, NPT, BSW, BSP and BSPT carried out by team of highly dedicated workforce. Having our own setup electroplating plant, we are capable of providing our customer utmost satisfaction in manufacturing and finishing of the fasteners supplied. We are having our Unit-II as Royal Industrial Service, our subsidiary company based in Jamnagar and setup in 21,000 sq. ft. area with manufacturing capacity of 7,00,000 screws/shift. We have also developed new production line of aluminum and brass metal components.

The workflow in company is quality driven and with the team of self-motivated workers and staff members. All working towards continuous improvement and to achieve excellence in the manufacturing of products. Having expertise in gimped screws we are providing our customers the required torque and design in various gimped screws. In future, we are planning to double our current production capacity by running the production in double shift and procuring the latest and hi-tech quality assurance equipment that will strengthen our process quality.

Quality Assurance

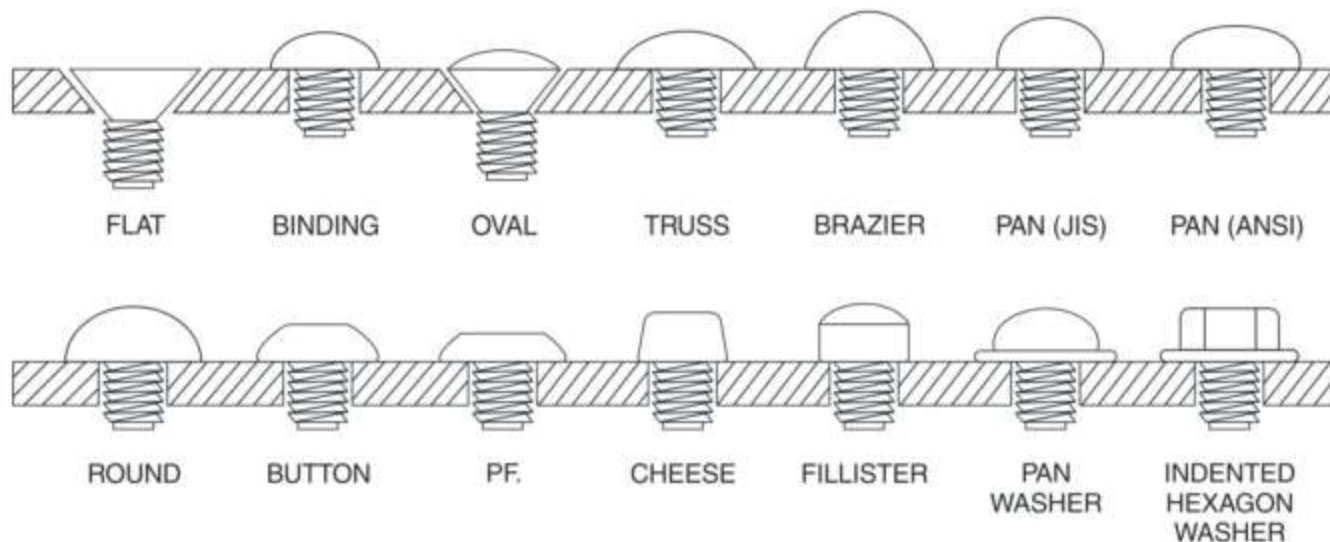

At Royal Fasteners, we always strive to provide our customers will best quality products with zero compromise and 100% satisfaction. We constantly monitor all our process to see to it that all our customer get complete satisfaction from our side in terms of product quality, delivery and even after sales services. Our target is to provide zero defect products to client, which is remarkable and also required in all the industries.

To meet the global demand and global industrial standards we take precise care of each process, right from raw material purchase to manufacturing of finished goods and even the in time dispatch and final delivery. Our quality assurance team is trained and well experienced to achieve all our goals at its most.

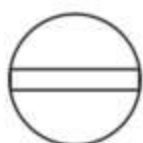

All individuals at Royal Fasteners is our strength, as each and every individual works with complete dedication and constantly strive to manufacture and provide best quality products by considering various strict quality control measures.

Slotted Head Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ▣ Oval head slotted screw
- ▣ Round head slotted screw
- ▣ CSK slotted screw
- ▣ Cheese head collar slotted screw
- ▣ Slotted head Screw with dog point

Product Details

Material : Mild steel, Stainless Steel, Brass, Copper

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, tin, brass plated

Size : Metric thread from M2 to MB and equivalent size in UNF, BSW, UNC, BSP, NPT.

Pozi Drive Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ▣ Philips Drive screw
- ▣ Binding head screw
- ▣ Screw as per Din Standard
- ▣ Screw with Dog-point end
- ▣ Pozi Combination with Z recess screw

Product Details

Material : Mild steel, Stainless Steel, Brass, Copper

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, tin, brass plated

Size : Metric thread from M2 to MB and equivalent size in UNF, BSW, UNC, BSP, NPT.

Self-Tapping Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ Self-Tapping A type screw
- ❑ Self-Tapping AB type screw
- ❑ Self-Tapping B type screw
- ❑ Roofing Screw
- ❑ Sheeting Screw
- ❑ Chipboard screw

Product Details

Material : Mild steel, high tensile Steel

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, Brass Pated

Size : Metric thread from M2 to M8 and equivalent size in UNF, BSW, UNC, BSP, NPT.

Hex Bolt

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ Hex Bolt with Flange
- ❑ Heavy Hex Head Bolt
- ❑ Slotted Hex head Bolt
- ❑ Philips Combi Hex Head Bolt
- ❑ Askew Head Hex Bolt

Product Details

Material : Mild steel, high tensile Steel.

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, Brass Plated.

Size : Metric thread from M2 to M8 and equivalent size in UNF, BSW, UNC, BSP, NPT.

Hex Socket Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ▣ Hex Socket Round head screw
- ▣ Heavy Socket knurling head screw

Product Details

Material : Mild steel, high tensile Steel

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel Plated

Size : Metric thread from M2 to M8 and equivalent size in UNF, BSW, UNC, BSP, NPT.

Torx Head Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ▣ T8 Torx Head Screw
- ▣ T10 Torx Head Screw
- ▣ T20 Torx Head Screw

Product Details

Material : Mild steel, high tensile Steel.

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel Plated.

Size : Metric thread from M2 to MB and equivalent size in UNF, BSW, UNC, BSP, NPT.

Screw with Customized Head Shape

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ Flat head Screw
- ❑ T Head Screw
- ❑ Flat Head with Knurling Screw
- ❑ Flat head with Hole Bolt
- ❑ Square Head Screw
- ❑ Square Drive Screw
- ❑ Other Customized head screw

As per customer requirement

Product Details

Material : Mild steel, high tensile Steel

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, Tin, Brass Plated.

Size : Metric thread from M2 to M8 and equivalent size in UNF, BSW, UNC, BSP, NPT.

Socket Set Hex Grub Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ Slotted Head Grub Screw
- ❑ Slotted Head Grub Screw with Dog-point end
- ❑ Double slot grub Screw
- ❑ Socket Set Grub Screw
- ❑ Socket Hex Conical Cup Grub Screw
- ❑ Flat end Socket Hex Grub Screw
- ❑ Knurl Cup Socket Hex Grub Screw
- ❑ Oval Cup Socket Hex Grub Screw

Product Details

Material : Mild steel, high tensile Steel.

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel Plated.

Size : Metric thread from M2 to MB and equivalent size in UNF, BSW, UNC, BSP, NPT.

Brass Screws

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ Philips Drive Brass Screw
- ❑ Pozi Combination with Z recess Brass Screw
- ❑ Binding head Brass Screw
- ❑ Brass Screw as per Din Standard
- ❑ Hex Head Brass Screw
- ❑ Slotted Head Brass Screw
- ❑ CSK Brass Screw
- ❑ Slotted Head Brass Screw with collar
- ❑ Square head Brass Screw
- ❑ Other Customized head screw

Product Details

Material : Steel, Stainless Steel, Brass, Copper

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel, Tin, Brass Plated.

Size : Metric thread from M2 to MB and equivalent size in UNF, BSW, UNC, BSP, NPT.

As per customer requirement

U-Bolt

ROYAL Serving 100% Satisfaction Industrial Service

- ❑ U-BOLT Threaded
- ❑ U-BOLT without thread

Product Details

Material : Mild steel, high tensile Steel.

Finish : Trivalent zinc (Blue, white, yellow, bright), Hexavalent zinc, Copper Nickel Plated.

Size : Metric thread from M3 to M16 and equivalent size in UNF, BSW, UNC, BSP, NPT.

Brass Electrical Parts

We are manufacturing all kind of electrical brass components and electrical wiring accessories for many applications. We produce components as per customer's requirement which change accordingly customer application.

Material : Free Cutting Brass IS 319 Type, Free Cutting Brass as per BS 249 Type, High Grade Free Cutting Brass.

Threads : ISO Metric, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc.

Finish : Natural, Nickel Plated, Tin Plated or any coating as per customer specification

Size : Specification or as per custom design or requirement

Any kind of Brass Electrical Components can be developed and supplied exactly as per customer specifications.

Brass Precision Components

We are highly reputed manufacturers and suppliers of Precision Components. Our products have attractive features like optimum quality, durability, effective usage and performance with friendly prices. These products are developed from effective raw materials and state of the art technology.

Material : S 319 Brass Free Cutting. As per BS-249 Free Cutting Brass Material. High Grade Free Cutting. Any Special Brass Material Composition on Request.

Threads : ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc

Any threads as per customer's design

Finish : Our Precision Brass Parts and Turned components are finished in natural Brass.

They are also Nickel plated, chromium plated and electro tin finished and SS plated on the requirement of the customer.

Any kind of Brass Precision Components can be developed and supplied exactly as per customer specifications.

Brass Turned Components

Brass Turned Components : With vast experience and knowledge we are involved in offering a premium quality range of Brass Turned Components. These are highly demanded in the market for their superior finishing and long working life. Offered products are manufactured using superior quality brass which we sourced from the trustworthy vendors of the market. Moreover, it can be availed at market leading prices.

Material : Free Cutting Brass IS 319 Type, Free Cutting Brass as per BS 249 Type, High Grade Free Cutting Brass.

Threads : ISO Metric, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc.

Any kind of Brass Electrical Components can be developed and supplied exactly as per customer specifications.

Aluminium Parts

Material : Aluminum standard material grade or as per customers specification.

Threads : ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc

Any threads as per customer's design

Size : Begins from M2 or equivalent threads and up to any size as per custom design or requirement

Finish : Natural, Nickel, Chrome, anodized or as per customer's requirements.

They are also Nickel plated, chromium plated and electro tin finished and SS plated on the requirement of the customer.

Any kind of Aluminium Parts can be developed and supplied exactly as per customer specifications.
