MS WIRE MESH

BENEFITS

1. Inventory levels are visible, making it easy to monitor product level at a glance.
2. Convenient drop side gate design for access to products, even when wire containers are stacked.
3. Four way fork entry. easily moved by forklift/ even when fully loaded.
4. Sturdy spiral hinges, welded, interlocking channel base, heavy-duty structure.
5. Foldable, collapsible, stacked design, fold flat for easy carry, re-cycle and storage when not in use.
6. Custom sizes and options are available.

Model	Wire dia	Size	Mesh Pitch	Capacity
1) SKY-8060640	800x600x640 mm	6 mm	50x50 mm	800 kg
2) SKY-1210890	1200x1000x890 mm	6 mm	50x50 mm	1200 kg
3) SKY-1080840	1000x800x840 mm	6 mm	50x50 mm	1000 kg

BASIC STRUCTURE

- A, Bending- shaped handle, open and lock the door naturally.
- B, U-shaped steel base channel, reinforce loading capacity.
- C, Particular structure of foot base, ensure the stability when stacked.
- D, Spring hinge connect the reticular wire mesh, containers can be folded when not in use.
- E, Fixed by metal clamp on the top to ensure the intensity of the spring hinge.
- F, Auxiliary strengthened structure, ensure the stability when stacked.
- G, Multiple spot welding technique, ensure the solidity and durability.
- H, Independent bolt and drop gate for easy to access when stacked.

METHOD OF FOLDING

We take pleasure to introduce ourselves as a quality centric organization engaged in manufacturing and supplying a wide range of PP Packaging. In addition, we take strict measures to achieve a quality in compliance with international standards. Our manufacturing process is closely observed and monitored by our quality analysts at each stage of production. The products finally pass through a rigorous quality check for a perfect finish, before being supplied to the clients.

*We, at **Skypac Plastica**, are committed to Total Quality Management.*

We shall continuously strive towards Zero Defect, delivery of quality products and services as perceived by our customers. This shall be achieved through documented procedures, training of employees and up-gradation of our sub-contractors. Implementation of this policy shall be the responsibility of every individual in our organisation.

Our organization is backed by a team of skilled and dedicated artisans and craftsmen who are committed to produce PP Packaging Solutions, corresponding to the specific needs of our clients. Their immense passion and tremendous efforts enable us a quality range of Machines. We provide them regular training sessions that equip them with the latest knowhow in the industry. Our professionals' experience enables smooth operations at each stage and in each section up to quality and packaging & delivery.
