Our products

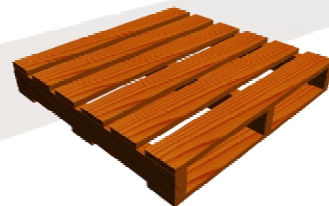

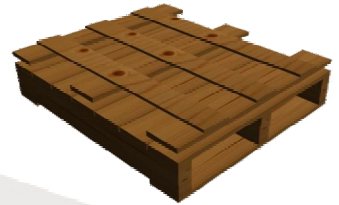

We may not be pioneers but we certainly are a force to reckon with in the pallet manufacturing business.

Our vision is to become number one pallet manufacturing company by providing variety of pallets and keeping customer satisfaction as our benchmark.

We are based in Bangalore, the IT and BT capital of India.

Our core competency lies in investing on our people, keeping in mind that exemplary team spirit and visionary management are the key factors in achieving our goals.

Our future endeavor is to bring new packaging products & global packaging concepts to your doorstep, besides expanding our services across the country, and definitely across its borders too.

Us, as in we

Our credentials speak for us in wooden and Plywood boxes manufacturing and supply.

Our inception in the year... came about on a singular vision, to cater to not just a niche segment of an industry but to the society in general.

Hence, thru the course of the intervening years we have achieved a notable objective. We are indeed a brand today, established and reputed in the manufacture and supply of a variety Wooden Pallets such as, Heat Treated Pallets, Chemical Treated Pallets, Fumigated Pallets, Export Pallets and Wooden Crates.

Quality comes first, immediately followed by durability and affordability; for that is how we do our business with you. Our endeavor is therefore a deliberate one, which ensures our products are developed by keeping your demands and the latest trends in the market, in mind.

Today, we are an **ISO 9001;2008** company, catering to a wide spectrum of business like machine components, electronic panels, computers, lab equipment, farming, building & infrastructure materials, and so forth.

We are backed by both man and machine; on the one hand we have the gamut of sophisticated and advanced manufacturing machines, on the other, they are assisted and managed by qualified and experienced professionals, technically inclined to understand your needs.
