

SEABALT TECHNOLOGIES

Company Profile

ABOUT US

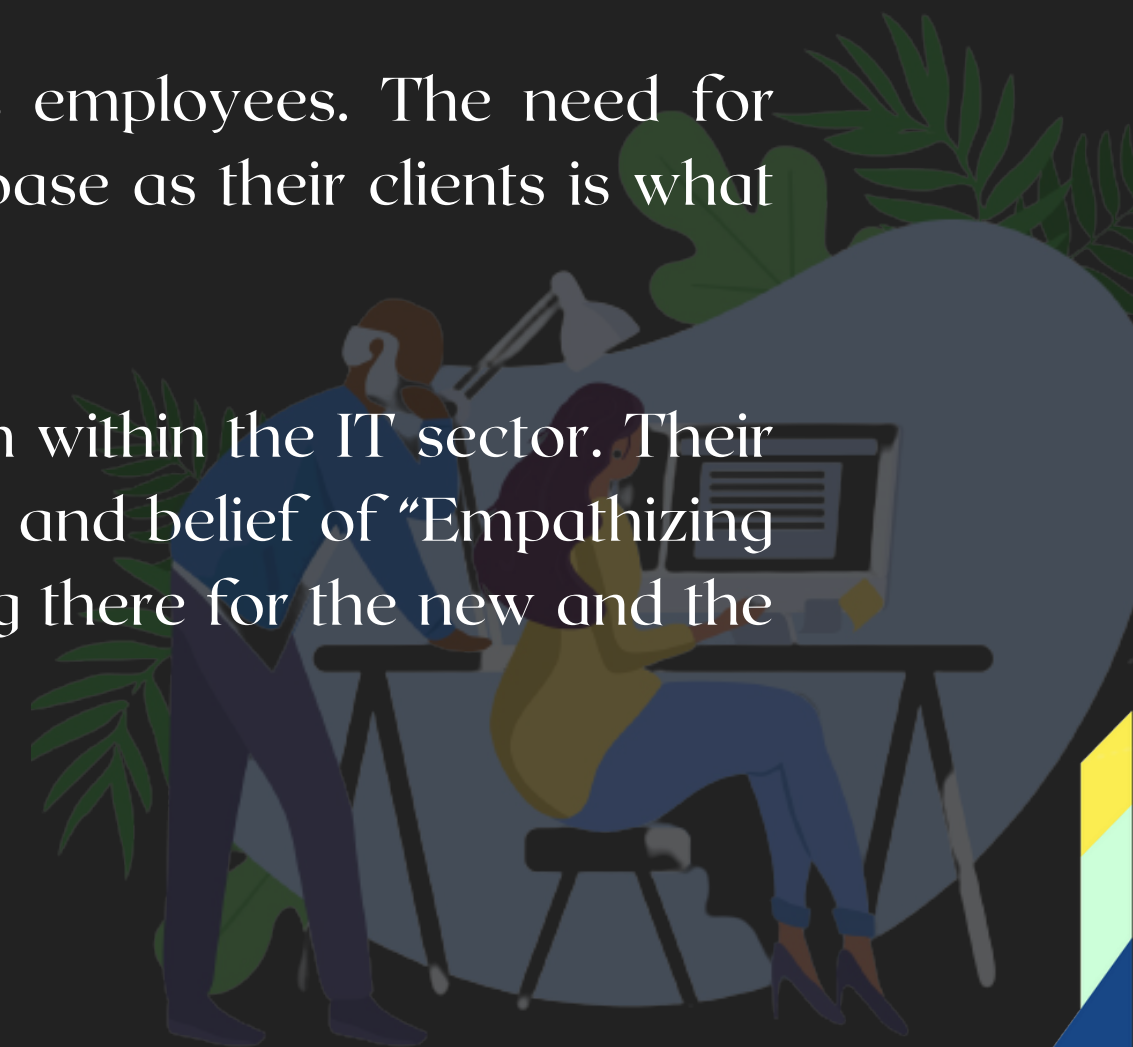

Seabalt Technologies Private Limited is the next leading name in Information Technology Services and Smart Agricultural Monitoring Systems. Headquartered in Nadiad, Gujarat, Seabalt Technologies was founded in 2020 with an aim of being an epitome of innovation.

Seabalt is committed to leading the charge in providing feasible solutions to its customers with certitude. Our work is in contrast with the emerging technologies and services that are for the betterment of companies.

Seabalt Technologies also believes in the commitment and well-being of its employees. The need for considering employees as the rightful people and consider them in the same base as their clients is what makes Seabalt Technologies' environment unique.

The founder and the management committee have extensive business acumen within the IT sector. Their vision of making sure that there is enough space for everyone, and their motto and belief of "Empathizing with the neoteric" stands true, thereby creating a life-long legacy for truly being there for the new and the emerging.

We are all about serving you in
the most feasible way possible...

OUR MISSION

- Provide superior quality solutions to our customers.
- Empathizing with the customer, their needs, and walk along with them in solving the problems.
- Transpire with a supreme solution that the customer aims for.
- Create an idyllic environment for the employees to boost themselves and empower them to walk on the mission with us.
- Create a potential for farmers and agriculturists to increase their yield with our product.

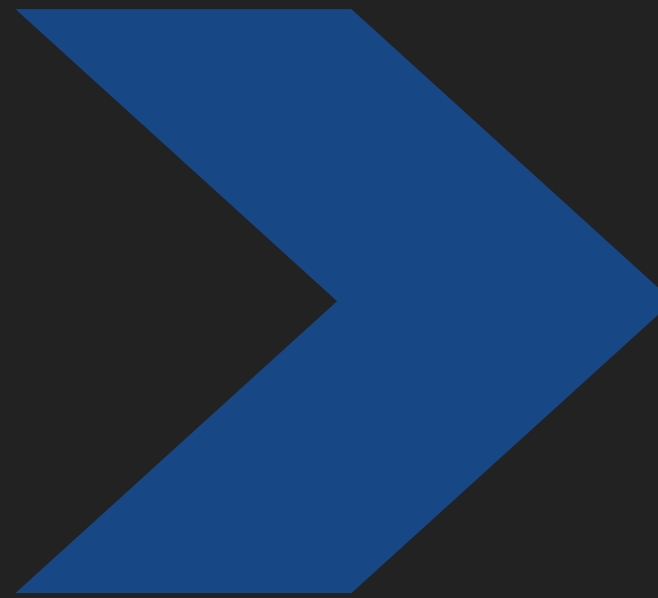

OUR VISION

- Understand the impact, empathize, and define the problems for the clients before looking into business.
- Create a legacy of providing feasible and quality services to our customers.
- Boost the team's morale and make connection in the global village by 2025.
- Ingrain the quality of leadership without a title, commitment, and punctuality among all the team members.
- Become a \$100 million company by 2030.
- Expand Seabalt and flourish in 2 more sectors apart from IT.
