

We SV Steelage Pvt. Ltd. are pleased to introduce ourselves as one of the leading manufacturers of Aluminium Alloys, De-oxidizing Agents, Aluminium Circles in India.

SV Steelage has two verticals of business one is Aluminium Alloy, De-oxidizing Agents, Aluminium Circles Manufacturing which is under the name of SV Steelage Pvt. Ltd. & other vertical in Export Division under the same name. We are leaders in both segments. We are serving globally from last 16 years, our quality System / Process Control are very much prescised.

Our manufacturing facilities are in the North Region of India, we have an existing installed capacity of 12,000MT per annum.

We are manufacturing all grades of Aluminium Alloys, De - Oxidizing Agents used in the Automotive ,Steel Industry & Electrical Industry like ADC-12 / AC4B / HS-1H / LM-6 / A356 / AlSi10Mg / LM-13 / LM-25 & Aluminium Circles – Grade and tailored alloys & so on.

De – Oxidising Agents Are Primarily Used In Steel Industries To Clean The Oxides Formed In Iron. They Use A Simple Chemical Reaction To Achieve The Same.

1. Capacity for 300 MT of de-oxidizing agents for the steel industry
2. Capacity for 300 MT of Aluminium Circles.
3. Capacity for 1000 MT of Aluminium Alloys.

Our Customers base are both in domestic as well as international markets, we are Supplying Aluminium Notch Bar, Aluminium Cubes. A brief introduction is enclosed herewith for your reference.

**Best Regards**
