## ABOUT US

---

*W*

*e are one of the largest manufacturers of Transmission Gears and Shafts in India having headquarters in New Delhi. The Company at present employs 3000+ people and proves its capabilities to grow and sustain in the fast changing global auto component business environment.*

*The Company manufactures and markets components that include Transmission Gears & Shafts, Auto-electrical Components, Steering Components and various Precision Engineering Components. Shivam Autotech Limited has been serving a large number of national and international automobile manufacturers as their principal component partner from its inception.*

*Recently, we had set-up two additional state-of-the-art plants at Vemgal, Karnataka and Rohtak, Haryana. These two new plants are operating to produce finished products as import substitution under indigenization program, leading to considerable foreign exchange savings. This competence development also gives an opportunity for future exports to different overseas customers. This is a step forward in achieving Make-in-India dream of Government of India.*

### State of Company's Affairs and Future Outlook

During the financial year 2017-18, revenue from operations was Rs. 56,685.15 lacs as compared to Rs.48,565.87 lacs in 2016-17, registering an increase of 17%.

Operating profit of the Company has increased to Rs. 7940.33 lacs from Rs. 4798.08 lacs in 2016-17. The Company has achieved major milestones in setting up of two state of the art manufacturing facilities at Bengaluru and Rohtak, though the capex of these facilities has impacted the profitability of FY 17-18. However, these capex in new plants has widen the Company's product portfolio and has enhanced further its capability as a niche auto components producer.

Your Company has taken measures to enhance operational efficiencies by focusing on improving yields, reducing rejections and enhancing capacity utilisation. The Company is taking necessary steps for improvements at all levels. Critical precise components by very nature call for near zero tolerance/ rejections approach at all stages of operations. Thorough quality check, standard operating procedures, top class tools usage and detailed training and awareness among all – from operator level to the senior manager level ensures prevalence of sound work culture and high level of productivity. Necessary POKAYOKE are being implemented

in the processes to nib the problem in the bud and minimize rejections.

### Business Overview

With the impressive, technology driven high end machineries installed in all its facilities, the Company is able to produce high volumes with impeccable quality required for complex, wide range of transmission and precision engineering components. With the state of art manufacturing facilities, the Company is functioning successively to strengthen its Customer Base. The Sales to other Customers like Bosch, Denso, INEL, Mitsuba, Yamaha, ZF, Hilti, Volvo Eicher and Maruti etc. has increased compared to last year, still Hero MotoCorp Limited (HMCL) being the major customer. Customer Profile for the financial year 2017-18 is as follows:

With the impressive, technology driven high end machineries installed in all its facilities, the Company is able to produce high volumes with impeccable quality required for complex, wide range of transmission and precision engineering components. With the state of art manufacturing facilities, the Company is functioning successively to strengthen its Customer Base. The Sales to other Customers like Bosch, Mando, Denso, INEL, Mitsuba, Yamaha, ZF, Hilti, Volvo Eicher and Maruti etc. has increased compared to last year, still Hero MotoCorp Limited (HMCL)

With the increase in growth rate of Customers, the Company is expecting to maintain a healthy growth in its scale of operations and widen its geographical reach. It is also expected to add new customers in the upcoming financial years. Cutting edge technology on a sustained basis is the touch stone of the manufacturing excellence of the Company.

The Company is working meticulously towards mitigating its concentration risk by diluting the percentage of the concentration by increasing sales to other customers or entering new markets which is principally the focus area. The Company is successively clearing the major audits of its Customers in all plants and working towards entering into new verticals with the set-up of world class facilities at Bengaluru and Rohtak plant.

## ANNEXURE 'A' TO BOARD'S REPORT

### MANAGEMENT DISCUSSION & ANALYSIS REPORT

#### Economic Scenario and Industry Structure

GDP growth slowed to a 4-year low of 6.7 percent, but a recovery is under way. India's economy is picking up and growth prospects look bright—partly thanks to the implementation of recent policies, such as the nationwide goods and services tax. As one of the world's fastest-growing economies—accounting for about 15 percent of global growth—India's economy has helped to lift millions out of poverty, according to International Monetary Fund (IMF).

Considering the transient impact of structural reforms and initiatives such as demonetisation, implementation of goods and services tax (GST), Real Estate (Regulation and Development) Act, Insolvency and Bankruptcy Code, etc., the country's GDP growth rate is slated to rebound and sustain over coming years.

The recent cash shortages after the currency demonetization, as well as transitional costs from the introduction of the goods and services tax weighed heavily on economic performance. The goods and services tax created a unified national market for the first time by lowering internal barriers to trade—effectively establishing a free trade agreement for a market of over 1.3 billion people. The tax is also expected to increase the amount of economic activity taking place in the formal sector of the economy—leading to better quality and more reliable jobs. As a result, the goods and services tax should improve productivity and boost medium-term potential growth, while also creating room for the government to increase much needed social and infrastructure spending.

#### Government Initiatives

The country has recently implemented a new insolvency and bankruptcy code, which should make it easier for creditors to seek repayment from debtors who are in arrears. The bankruptcy code is already shifting the power balance between debtors and creditors and improving corporate repayment discipline. In addition to the bankruptcy code, the central bank and government have taken steps to improve banks' recognition of bad assets and to recapitalize public sector banks. Ultimately, these efforts will help to solidify bank balance sheets and support the flow of credit to the rapidly expanding economy.

Another key area of reform is to strengthen governance in public sector banks to complement the reforms in the financial sector already underway. This is needed, for example, to improve incentives to enhance the efficiency of bank operations and foster more disciplined lending practices by banks. A first step would be to strengthen the quality and independence of these banks' boards, and privatization could also eventually be considered.

A further deepening and broadening of structural reforms is needed to raise investment, job growth, and productivity over the medium term, to spur India's catch up with advanced economies and create jobs needed for India's young and growing labor force.

#### Market Size

Evolving customers' preferences, higher disposable incomes, increasing urbanisation and infrastructure turnaround may lead to structural and segmental shifts in the two-wheeler industry.

According to SIAM data, the Auto-Industry produced a total 29,075,605 vehicles including Passenger Vehicles, Commercial Vehicles, Three Wheelers, Two Wheelers and Quadricycle in April-March 2018 as against 25,330,967 in April-March 2017, registering a growth of 14.78 percent over the same period last year.

#### Domestic Sales

- The sale of Passenger Vehicles grew by 7.89 percent in April-March 2018 over the same period last year. Within the Passenger Vehicles, Passenger Cars, Utility Vehicle and Vans grew by 3.33 percent, 20.97 percent and 5.78 percent respectively in April-March 2018 over the same period last year.
- The overall Commercial Vehicles segment grew by 19.94 percent in April-March 2018 as compared to the same period last year. Medium & Heavy Commercial Vehicles (M&HCVs) grew by 12.48 percent and Light Commercial Vehicles grew by 25.42 percent in April-March 2018 over the same period last year.
- Three Wheelers sales grew by 24.19 percent in April-March 2018 over the same period last year. Within the Three Wheelers, Passenger Carrier & Goods Carrier sales registered a growth of 28.65 percent and 7.83 percent respectively in April-March 2018 over April-March 2017.

- Two Wheelers sales registered a growth at 14.80 percent in April-March 2018 over April-March 2017. Within the Two Wheelers segment, Scooters and Motorcycles grew by 19.90 percent and 13.69 percent respectively, while Mopeds declined by (-) 3.48 percent in April-March 2018 over April-March 2017.

### Exports

In April-March 2018, overall automobile exports increased by 16.12 percent. Two and Three Wheelers Segments registered a growth of 20.29 percent and 40.13 percent respectively, while Passenger Vehicles and Commercial Vehicles declined by (-)1.51 percent and (-) 10.53 percent respectively in April-March 2018 over the same period last year

### Opportunities & Threats

India's economy is gaining momentum, thanks to the implementation of several recent noteworthy policies—such as the enactment of the long-awaited goods and services tax, and the country opening up more to foreign investors. Therefore, we expect economic growth to pick up to about 7.3 percent for fiscal year 2018-19 from 6.7 percent in the year prior.

A reform and streamlining of the complicated web of labor laws would go in the same direction as the goods and services tax, by further promoting employment in the formal economy, and would help sustain growth.

### Outlook

India can benefit from improving its integration with global markets. The country has made a lot of progress, in that most foreign investments are now allowed to enter sectors of the Indian economy under what is known as “the automatic route.” This amounts to a meaningful reduction

in bureaucratic oversight, and greatly increases access to the Indian market for foreign investors.

However, more can be done to sustain the recent foreign direct investment inflows and remove trade barriers—which remain significant in the country.

These include:

- reducing trade documentation requirements and procedures;
- lowering tariffs;
- continuing to improve the business climate; and
- improving governance

The Company expects a transformation in the industry with the paradigm shift expected in the auto industry including electric vehicles, digitization, focus sustainability, shift to more efficient engines and changing regulations. Automation is the need of the hour and the Company is encouraging and supporting its suppliers to move to full automation, wherever appropriate.

### Cautionary Statement

Certain Statements in the Management Discussion and Analysis describing the company's objectives, projections, estimates and expectations or predictions may be ‘forward looking statements’ within the meaning of applicable laws and regulations. It cannot be guaranteed that these assumptions and expectations are accurate or will be realized. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting demand / supply and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and incidental factors.

## Independent Auditors' Report

### To The Members of Shivam Autotech Limited

#### Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Shivam Autotech Limited** ("the Company"), which comprise the Balance sheet as at March 31, 2018, Statement of Profit and Loss (including the statement of other comprehensive income), the Statement of Cash Flows and the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements").

#### Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended thereof.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order Issued under Section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing, specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

## Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

## Emphasis of Matter

Without qualifying we draw attention to Note no. 7 to the financial statements wherein management has recognized deferred tax assets on the assumption that there would be sufficient future taxable profits, more fully explained in the said note for reversal of such deferred tax assets.

Our opinion is not modified in respect of this matter.

## Other Matter

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 01, 2016 included in this Ind AS Financial Statements, are based on the previously issued statutory financial statement prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited and reported by S.S. Kothari Mehta & Co. having firm registration number 000756N who have issued an unmodified audit report dated May 30, 2017 and May 28, 2016, have been furnished to us by the management and which have been relied upon by us for the purpose of issuing the report on the financial statement as adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, which has been audited by us.

Our report is not modified in respect of this matter.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order'), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The balance sheet, statement of profit and loss including statement of other comprehensive income, the statement of cash flow and statement of changes in equity dealt with by this Report are in agreement with the books of account;
  - d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended thereof;
  - e. On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
  - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B";

- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements – Refer Notes 31 to the Ind AS financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and

## **Annexure B to the Independent Auditor's Report to the members of Shivam Autotech Limited dated May 30, 2018.**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 1(f) of 'Report on Other Legal and Regulatory Requirements' section**

We have audited the internal financial controls over financial reporting of **Shivam Autotech Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

An audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India"

## Notes to Financial Statements for the year ended March 31, 2018

### 1 Corporate Information

Shivam Autotech Limited (the 'Company') was established in the year 1999, and was initially known as Munjal Auto Components till July, 2005. The Company got converted to a separate Public Limited Company w.e.f. 29<sup>th</sup> July, 2005. In pursuant to the scheme of Demerger & arrangement, the Gurgaon Unit was transferred to Shivam Autotech Limited on 1<sup>st</sup> August, 2005. The Company has been engaged in the manufacturing of Near-Net- Shaped, auto transmission components mainly for Original Equipment Manufacturers (OEMs). The product range includes various types of transmission gears, transmission shafts, spline shafts, plunger, power train components, and employing cold/warm/hot forging techniques. The Company has five state-of-the-art manufacturing facilities, located at Binola, Manesar, Haridwar, Bengaluru & Rohtak. The Company is listed on the National Stock Exchange and the BSE Ltd. These financial statements are presented in Indian Rupees (Rs.).

### 2 Basis of preparation

#### a) Statement of compliance

Ministry of Corporate Affairs notified roadmap to implement Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules 2015 as amended by the Companies (Indian Accounting Standards) (Amendments) Rules, 2016. As per the said roadmap, the Company is required to apply Ind AS starting from the financial year beginning on or after April 1, 2016. Accordingly, the financial statements of the Company have been prepared in accordance with Ind AS.

For all the periods up to and including the year ended March 31, 2017, the Company has prepared its financial statements in accordance with the Accounting Standards notified under the Section 133 of the Companies Act, 2013 read together with Companies (Accounts) Rules, 2014 (Indian GAAP) as amended. These financial statements for the year ended March 31, 2018 are the first financial statements which the company has prepared in accordance with Ind AS.

An explanation of how the transition to Ind AS has effected the previously reported financial position and financial performance of the Company is provided in note no 51.

#### b) Basis of measurement

The financial statements have been prepared accrual basis on historical cost convention, except as stated otherwise. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use."

#### c) Functional and presentation currency

The financial statements are presented in Indian National Rupee ('INR'), which is the Company's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

#### d) Current or Non current classification

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services provided and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

#### e) Use of judgments and estimates

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent liabilities and contingent assets at the date of financial statements, income and expenses during the

## Notes to the financial statements as at March 31, 2018

period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

Application of accounting policies that require critical accounting estimates and assumption judgments having the most significant effect on the amounts recognized in the financial statements are:

- Measurement of defined benefit obligations;
- Recognition of deferred tax assets & MAT credit entitlement;
- Useful life and residual value of Property, plant and equipment and intangible assets;
- Impairment test of financial and non-financial assets;
- Recognition and measurement of provisions and contingencies;
- Fair value measurement of financial instruments;

### 3 Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

#### a) Property, plant and equipment

##### i) Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, and any directly attributable cost of bringing the asset to working condition for its intended use. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost."

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. The cost of replacing part of an item of property, plant and equipment or major inspections performed, are recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of all other repairs and maintenance are recognized in the Statement of Profit & Loss as incurred. Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets. An item of property, plant and equipment is derecognized when no future economic benefit are expected to arise from the continued use of the asset or upon disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognized in statement of profit or loss.

##### Subsequent Expenditure

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the costs of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the Property, Plant and Equipment and the resultant gain or losses are recognized in the statement of profit and loss.

##### ii) Transition to Ind AS

On transition to Ind AS, the Company has decided to capitalise machinery spares amounting to Rs. 312.76 Lacs as Property, plant and equipment regarding rest of assets falling under the category Property, plant and

## Notes to Financial Statements for the year ended March 31, 2018

equipment company elected to continue with the carrying value recognized as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.”

### iii) Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values, and is recognized in the statement of profit and loss. Depreciation on property, plant and equipment is provided on Straight Line Method at the rates determined on the basis of useful life of the assets as prescribed in Schedule II of the Companies Act, 2013.

	<b>Useful Life as per Schedule II of the Companies Act 2013 (in years)</b>
- Plant & Machinery	15
- Buildings	30
- Computers	3
- Office equipment	5
- Furniture & fixtures	10
- Vehicles	8
- Lease hold Improvements	Amortised over the period of lease

Depreciation on additions to or on disposal of assets is calculated on pro-rata basis i.e. from (upto) the date on which the property, plant and equipment is available for use (disposed off). Property, Plant and Equipment individually costing below Rs. 5,000 are fully depreciated during the year they are put to use.

### b) Intangible assets

#### i) Recognition & measurement and amortization

Intangible Assets are recognized, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortized over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortization and impairment losses, if any and are amortized over their respective individual estimated useful life on straight line method. The estimated useful lives are as follows:

Computer Software – 4 years

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.

Intangible assets are tested for impairment when there are indications that the carrying value may not be recoverable. All impairment losses are recognised immediately in profit or loss.

An item of intangible asset is derecognised when no future economic benefit are expected to arise from the continued use of the asset or upon disposal. Any gain or loss on disposal of an item of intangible assets is recognized in statement of profit or loss.

### c) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset’s recoverable amount is estimated. For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (‘CGUs’). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value

## Notes to the financial statements as at March 31, 2018

in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss.

In respect of assets for which impairment loss has been recognized in prior periods, the company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

### d) Financial instruments

#### i) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at fair value of the consideration received or receivable. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### ii) Subsequent measurement

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. When the financial asset is derecognized or impaired, the gain or loss is recognized in the statement of profit and loss.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Equity instruments are subsequently measured at fair value. On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis. Fair value gains and losses recognized in OCI are not reclassified to profit and loss.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

## Notes to Financial Statements for the year ended March 31, 2018

### (iv) *Financial liabilities*

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments

### iii) **Impairment of financial assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognizes a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

### iv) **Derecognition**

#### **Financial Assets**

Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.”

#### **Financial liabilities**

The company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

### v) **Reclassification of Financial Assets and Financial Liabilities**

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company’s senior management determines change in the business model as a result of external or internal changes which are significant to the Company’s operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

### vi) **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Derivative financial instruments are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit or loss.

## Notes to the financial statements as at March 31, 2018

### vii) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using other valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair values for measurement and/ or disclosure purposes are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows.

**Level 1** - This includes financial instruments measured using quoted prices.

**Level 2** - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. Derived from prices).

**Level 3** - If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### f) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. Contingent Liability is disclosed after careful evaluation of facts, uncertainties and possibility of reimbursement, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities are not recognized but are disclosed in notes. Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

### g) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

### i) Sale of goods

Sales is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer and sales is inclusive of excise duty but net of returns, rebates and value added tax (VAT). Materials returned/ rejected are accounted for in the year of return/rejection. Excise Duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability arising during the year.

## Notes to Financial Statements for the year ended March 31, 2018

### ii) Dividends

Dividend is recognized when the shareholders' right to receive payment is established by the balance sheet date.

### iii) Insurance claim

Claims lodged with the insurance companies are accounted on accrual basis to the extent these are measurable and ultimate collection is reasonably certain.

### iv) Interest

Income Interest income is recognised on time proportion basis taking in to account the amount outstanding and the rate applicable.

### v) Government Grant & Subsidies

Grant/subsidies is recognised when there is reasonable assurance that the Grant/subsidy will be received and all attaching condition will be complied with.

## h) Employee Benefits

### i) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### ii) Defined contribution plans

Employees benefits in the form of the Company's contribution to Provident Fund, Family Pension scheme and Employees State Insurance are defined contribution schemes. The Company recognizes contribution payable to these schemes as an expense, when an employee renders the related service.

If the contribution payable exceeds contribution already paid, the deficit payable is recognized as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period. The Company recognize that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

### iii) Defined benefit plans

Retirement benefits in the form of gratuity are considered as defined benefit plans. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The company provides for its gratuity liability based on actuarial valuation of the gratuity liability as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary. The Company contributes to the gratuity fund, which are recognized as plan assets. The defined benefit obligation as reduced by fair value of plan assets is recognized in the Balance Sheet.

When the calculation results in a potential asset for the company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

## Notes to the financial statements as at March 31, 2018

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognized in statement of profit or loss. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

### iv) Other long-term employee benefits

Employee benefits in the form of long term compensated absences are considered as long term employee benefits. The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise. The liability for long term compensated absences are provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

### i) Valuation of inventories

- i) Finished goods are valued at lower of cost or net realizable value. Scrap is valued at net realizable value. cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. cost of Finished goods includes excise duty.
- ii) Work in progress is valued at lower of cost or net realizable value. cost is determined on average basis.
- iii) Stores, spares and raw materials are valued at lower of cost or net realizable value. However materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. cost of purchases is assessed on first in first out (FIFO) method.
- iv) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

### j) Foreign Exchange Transactions / Translations / Hedge Accounting

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Financial instruments designated as Hedge Instruments are mark to market using the valuation given by the bank on the reporting date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

### k) Borrowing costs

Borrowing costs are interest and other ancillary costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. General and specific borrowing costs attributable to acquisition and construction of any qualifying asset (one that takes a substantial period of time to get ready for its designated use or sale) are capitalized until such time as the assets are substantially ready for their intended use or sale, and included as part of the cost of that asset. All the other borrowing costs are recognized in the Statement of Profit and Loss within Finance costs of the period in which they are incurred.

## Notes to Financial Statements for the year ended March 31, 2018

### l) Income tax

Income tax expense comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in Other Comprehensive Income

#### i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year after taking credit of the benefits available under the Income Tax Act and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### ii) Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. In contrast, deferred tax assets are only recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- i) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- ii) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognized as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

### m) Segment Reporting

The Company's operating businesses are organized and managed separately according to the nature of products manufactured and services provided, with each segment representing a strategic business unit that offers different products. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate. The reportable segments have been identified based on the significant components of the

## Notes to the financial statements as at March 31, 2018

enterprise for which discrete financial information is available and are reviewed by the Chief operating decision maker (CODM) to assess the performance and allocate resources to the operating segments. Refer Note -40.

### n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### o) Cash flow statement

Cash flows are reported using the indirect method as explained in the Accounting Standard on Statement of Cash Flows (Ind AS - 7), whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### p) Lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

#### i) Finance Lease

Finance Lease that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in finance costs in the statement of profit and loss. A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

#### ii) Operating Lease

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset. Payments under operating lease are recorded in the Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

### q) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### 46 Impairment Review

Assets are tested for impairment whenever there are any internal or external indicators of impairment. Impairment test is performed at the level of each Cash Generating Unit ('CGU') or groups of CGUs within the Company at which the assets are monitored for internal management purposes, within an operating segment. The impairment assessment is based on higher of value in use and value from sale calculations. During the year, the testing did not result in any impairment in the carrying amount of other assets. The measurement of the cash generating units' value in use is determined based on financial plans that have been used by management for internal purposes. The planning horizon reflects the assumptions for short to- mid-term market conditions.

#### Key assumptions used in value-in-use calculations are:-

- (i) Operating margins (Earnings before interest and taxes), (ii) Discount Rate, (iii) Growth Rates and (iv) Capital Expenditure

### 47 Events occurring After the Balance Sheet date

No adjusting or significant non adjusting events have occurred between the reporting date and date of authorization of financial statements

### 48 Financial Risk Management

Financial risk management objectives and policies:

The Company, as an internationally active supplier for the automobile industry expose its business and products to various market risks, credit risk and liquidity risk. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's senior management oversees the management of these risks and devise appropriate risk management framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

Below notes explain the sources of risks in which the Company is exposed to and how it manages the risks:

#### A Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. The Company is exposed to following key market risks:

##### a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash follows of the financial instruments will luctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which exposes the Company to cash flow interest rate risk. During March 31, 2018 and March 31, 2017, the Company's borrowings at variable rate were mainly denominated in INR.

Interest rate risk exposure - The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(All amounts are in lakhs unless otherwise stated)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Variable Rate Borrowing	35,574.44	35,637.21	27,821.90
Fixed Rate Borrowing	5,794.56	4,406.04	2,691.44

<b>Total</b>	<b>41,246.76</b>	<b>39,929.08</b>	<b>30,416.95</b>

An analysis by maturities is provided in Note (C) Maturities of financial liabilities below.

Sensitivity analysis - For Floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

Sensitivity on variable rate borrowings	Impact on Profit & Loss Account	
	For the year ended 31-03-2018	For the year ended 31-03-2017
Interest rate increase by 0.25%	88.94	89.09
Interest rate decrease by 0.25%	(88.94)	(89.09)

## Notes to Financial Statements for the year ended March 31, 2018

### b) Price Risk

Fluctuation in commodity price in global market affects directly and indirectly the price of raw material and components used by the Company in its various products segment. Substantial pricing pressure from major OEMs to give price cuts and inability to pass on the increased cost to customers may also affect the profitability of the Company.

**Key Raw material** - As per the agreement with the customers, any increase in the raw materials prices is passed on to the customer. But in some cases where the customer was already asking for reduction in prices, the company has to absorb the price increase.

### c) Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an foreign exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's export revenue and import of raw materials and other consumables.

The unhedged foreign currency exposure is as follows:

### B Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits and other financial instruments.

The Company has developed guidelines for the management of credit risk from trade receivables. The Company's primary customers are major Indian automobile manufacturers (OEMs) with good credit ratings. Non-OEM clients are subjected to credit assessments as a precautionary measure, and the adherence of all clients to payment due dates is monitored on an on-going basis. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 49. The Company does not hold collateral as security except in case of few customers. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Particulars	As at 31st March, 2018		As at 31st March, 2017		As at 1st April, 2016	
	Upto 6 months	More than 6 months	Upto 6 months	More than 6 months	Upto 6 months	More than 6 months
Gross carrying amount (A)	7,844.62	435.00	6,304.77	355.71	4,308.37	406.99
Expected Credit Losses (B)	-	4.35	-	3.56	-	4.07
Net Carrying Amount (A-B)	7,844.62	430.65	6,304.77	352.15	4,308.37	402.92

Credit risk from balances with banks and other financial asset is managed in accordance with the Company's approved investment policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed on regular basis and the said limits gets revised as and when appropriate. The limits are set to minimise the concentration of risks and therefore

## Notes to the financial statements as at March 31, 2018

mitigate financial loss through counterparty's potential failure to make payments. The Company has deposited liquid funds at various banking institutions. Primary banking institutions are major Indian and foreign banks. In long term credit ratings these banking institutions are considered to be investment grade. Also, no impairment loss has been recorded in respect of fixed deposits that are with recognised commercial banks and are not past due.

### C Liquidity risk:

The liquidity risk encompasses any risk that the Company cannot fully meet its financial obligations. To manage the liquidity risk, cash flow forecasting is performed in the operating divisions of the Company and aggregated by Company finance. The Company's finance monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities / overdraft facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

**A** - Company has opted to fair value its mutual fund investment through profit & loss

**B** - Company has opted to fair value its quoted investments in equity share through OCI

**C** - As per Para D-15 of Appendix D of Ind AS 101, the first time adopter may chose to measure its investment in subsidiaries, JVs and Associates at cost or at fair value. Company has opted to value its investments in subsidiaries, JVs and Associates at cost.

**D** - Company has adopted effective rate of interest for calculating Interest. This has been calculated as the weighted average of effective interest rates calculated for each loan. In addition processing fees and transaction cost relating to each loan has also been considered for calculating effective interest rate.

\* In case of trade receivables, cash and cash equivalents, trade payables, short term borrowings and other financial assets and liabilities it is assessed that the fair values approximate their carrying amounts largely due to the short-term maturities of these instruments.

#### Fair value hierarchy

**Level 1** - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2** - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

## Notes to the financial statements as at March 31, 2018

The fair values of the financial assets and financial liabilities included above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties

**Level 3** - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

### 50 Capital Management

For the purpose of the Company's capital management, equity includes issued equity capital, securities premium and all other equity reserves attributable to the equity shareholders and net debt includes interest bearing loans and borrowings less current investments and cash and cash equivalents. The Company's objectives when managing capital is to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments in light of changes in economic & financial conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. The Company has complied with these covenants and there have been no breaches in the financial covenants of any interest-bearing loans and borrowings.

No changes were made in the objectives, policies or processes for managing capital during the year ended 31<sup>st</sup> March, 2017 and 31<sup>st</sup> March, 2018.

### 51 Transition to Ind AS

#### First-time adoption of Ind AS

These financial statements, for the year ended March 31, 2018, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2018, together with the comparative period data as at and for the year ended March 31, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2016, being the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at April 01, 2016 and the financial statements as at and for the year ended March 31, 2017.

This note explains the principal adjustments made by the Company and an explanation on how the transition from the previous GAAP to Ind AS has affected its financial statements, including the Balance Sheet as at 1st April, 2016 and the financial statements for the year ended 31<sup>st</sup> March, 2017.

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from the previous GAAP to Ind - AS:

## Notes to the financial statements as at March 31, 2018

### **a. Deemed cost**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying gross & net value as it is for all of its property, plant and equipment as recognised in the financial statements as on the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost on the date of transition.

The Company has elected to continue with the carrying gross & net value as it is for all classes of its property, plant and equipment and intangible assets, including capital work-in-progress, recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Material items such as spare parts, stand by equipment and service equipments are classified as property, plant and equipment when they meet the identification of property, plant and equipment, as specified in Ind AS 16-Property Plant and Equipment.

### **b. Leases**

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing on the date of transition to Ind AS, except where the effect is expected to be not material.

### **c. Investment in subsidiary, associate, joint venture**

Ind AS 27 requires an entity to account for its investments in subsidiaries and associates either at cost or in accordance with Ind AS 109. Ind AS 101 provides an option to measure such investments as at the date of transition to Ind AS either at cost determined in accordance with Ind AS 27 or deemed cost, where deemed cost shall be its fair value as at date of transition to Ind AS or previous GAAP carrying amount as at that date.

### **d. Designation of previously recognised financial instruments**

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances on the date of transition to Ind AS. The Company has elected to apply this exemption for its investment in equity investments.

### **e. Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 01, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

### **f. De-recognition of financial assets and liabilities**

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Company has applied the de-recognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after April 1, 2016 (the transition date).

### **g. Classification and measurement of financial assets**

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

### **h. Impairment of financial assets**

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

## Notes to the financial statements as at March 31, 2018

### i Government Grant

Ind AS 101 requires a first time adopter to recognise the requirements in Ind AS 109, Financial Instruments, and Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance, prospectively to government loans existing at the date of transition to Ind AS and shall not recognise the corresponding benefit of the government loan at a below-market rate of interest as a government grant. Consequentially the company has recognised and measured government grant on a government loan at a below-market rate of interest prospectively.

## Notes to the financial statements as at March 31, 2018

### **Footnotes to the reconciliation of equity as at 1st April, 2016 and 31st March, 2017 and Statement of Profit and Loss for the year ended 31st March, 2017 :**

#### **Financial Assets & Liabilities**

The previous year's including figures as on the date of transition have been reworked, regrouped, rearranged and reclassified wherever necessary. Amounts and other disclosures for the preceding year including figures as at the date of transition are included as an integral part of the current year financial statements and are to be read in relation to the amounts and other disclosures relating to the current year.

#### **Other comprehensive income**

Under the previous GAAP, the Company did not present total comprehensive income and other comprehensive income. Hence, it has reconciled the previous GAAP profit to profit as per Ind AS. Further, the previous GAAP profit is reconciled to other comprehensive income and total comprehensive income as per Ind AS.

#### **Deemed Cost of Property, plant and equipment & Intangible Assets**

Under Ind AS, the Company has elected to opt for cost model with respect to property, plant and equipments, capital work in progress and intangible asset. There are no decommissioning liabilities of the Company. Material items such as spare parts, stand by equipment and service equipments are classified as property plant and equipment when they meet the identification of PPE as specified in Ind AS 16- Property Plant and Equipment.

#### **Borrowings**

Ind AS requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognized in profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Under the previous GAAP, transaction costs incurred in connection with borrowings were accounted upfront and charged to Statement of Profit and Loss for the period in which such transaction costs was incurred. Accordingly, borrowings as at the transition date have been reduced by Rs 63.02 lakhs with a corresponding adjustment to retained earnings, net of tax.

#### **Trade Receivables**

Under Indian GAAP, the Company has created provision for impairment of receivables consists only in respect of specific amount for incurred losses. Under Ind AS, impairment allowance has been determined based on Expected Loss model (ECL). Company has expected credit losses in its trade receivable aging more than six months @ 1%.

#### **Defined benefit obligation**

"Both under Indian GAAP and Ind AS, the company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Thus, the employee benefit cost is reduced by Rs 25.20 lakhs on account to re-measurement loss for the FY 2016-17 and remeasurement loss on defined benefit plan has been recognized in the OCI, net of tax as at 31st March 2017.

#### **Long term financial asset at amortised cost**

Under Indian GAAP, long-term financial assets such as interest free deposit were recognised at the contractual amount and were not discounted. Under Ind AS, where the effect of time value of money is material, the amount of asset should be recognised at the present value of amount expected to be realised. These assets are subsequently measured at amortised cost method.

**Deferred tax Liability (net)**

Previous GAAP required deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the year. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which were not required under the previous GAAP. Moreover, carryforward of unused tax credits are to be treated as deferred tax assets which was earlier considered as Other non-current non-financial assets. In addition, the various transitional adjustments lead to temporary differences and consequently deferred tax adjustments have been recognized in correlation to the underlying transaction in retained earnings. The net impact on deferred tax liabilities has increased by Rs. 31.95 lakhs and by Rs. 31.45 lakhs as at the date of transition and for the year ended on 31st March 2017 respectively.

**Revenue**

Under the previous GAAP, revenue from sale of goods was presented as net of excise duty on sales. However, under Ind AS, revenue from sale of goods includes excise duty and such excise duty is separately presented as an expense on the face of the Statement of Profit and Loss. Thus, under Ind AS, sale of goods for the year ended 31st March, 2017 has increased by Rs 2960.54 lakhs.

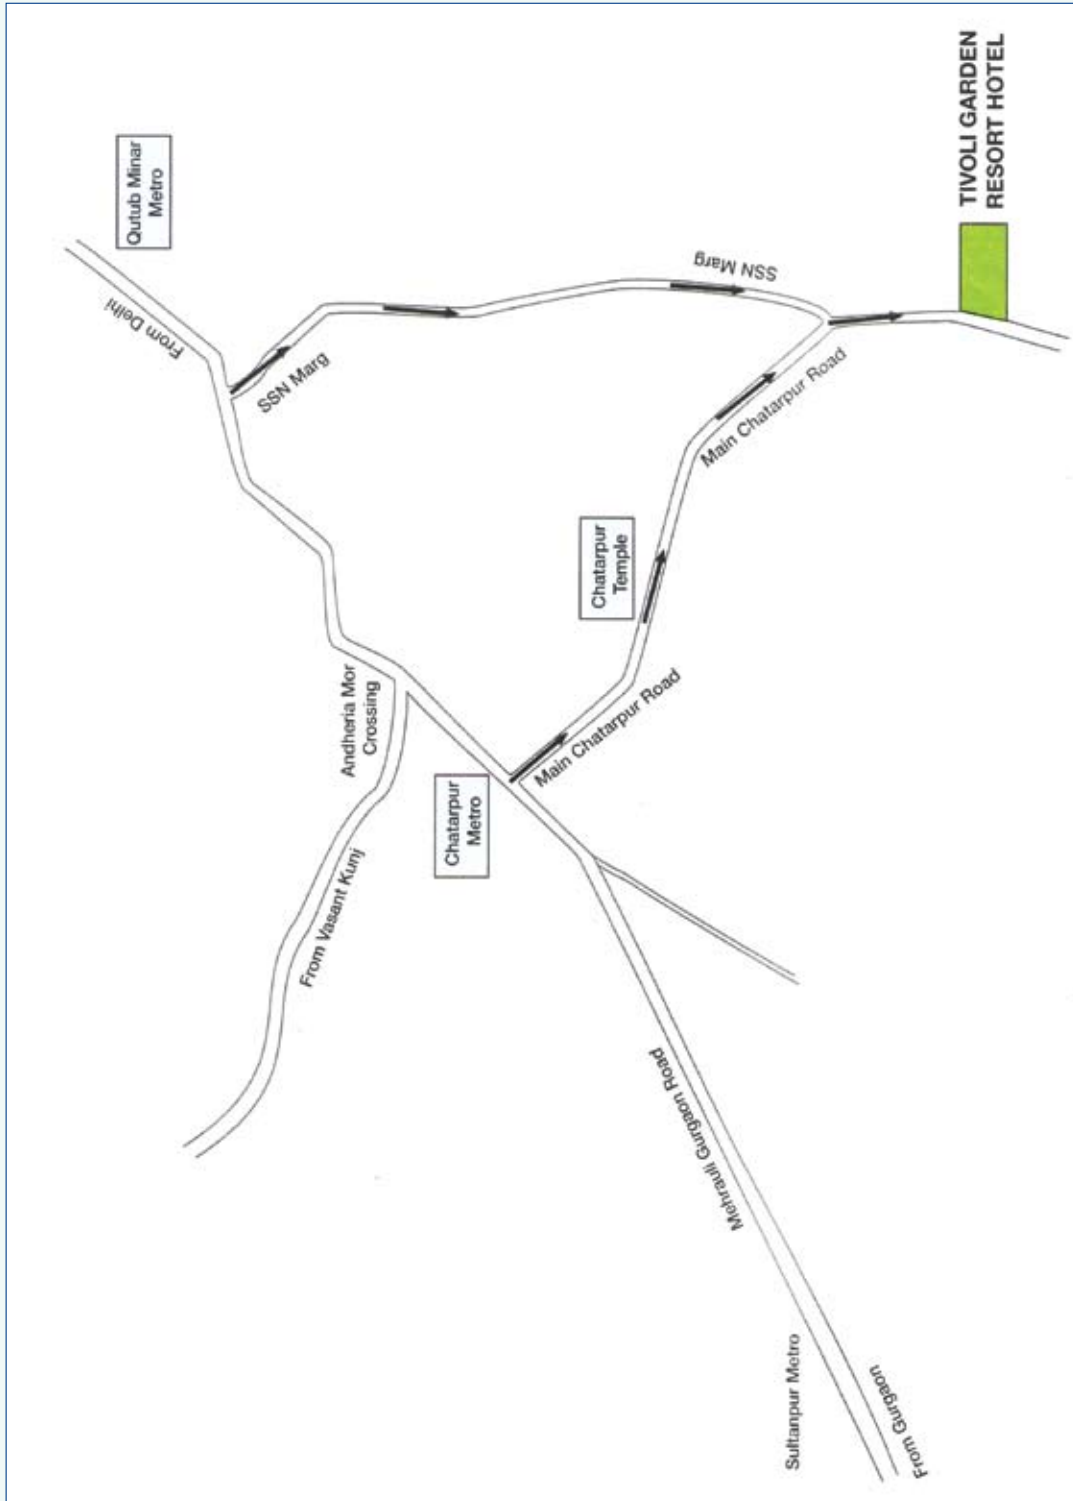

**Proposed Dividend**

Under the previous GAAP, dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of Rs 481.83 lakhs as at April 01, 2016 included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by an equivalent amount.

**Retained earnings**

Retained earnings as at the transition date has been adjusted consequent to the above Ind AS transitional adjustments.
